WE GO COOP

improving WEtland GOVERNance through a COmmunity Of Practice

The Interreg Euro-MED WE GO COOP aims to set up a Community of Practice of Wetland Contracts and to enhance and transfer the Wetland Contract in the Euro-Med region.

The Interreg Euro-MED WE GO COOP project promotes the implementation of **Wetland Contracts**, a multilevel collaborative governance tool tested in various EU-funded projects, fostering coordination between previously involved organizations and new key stakeholders. The project aims to establish a **Community of Practice (CoP)** among actors engaged in Environmental Contracts at the Mediterranean level, capitalizing on the outcomes of previous projects, sharing challenges and solutions. Meanwhile, the project will **exchange experiences, methodologies, and strategies** and **transfer the tool to new contexts** in the Euro-Mediterranean region and the Middle Eastern and Southern Mediterranean region. **Transnational cooperation** becomes the tool through which WE GO COOP forms the CoP uniting diverse perspectives facing similar challenges, enabling the project to meet the needs of wetlands on a large scale, ensuring the transferability of its results.

Total budget: € 999 784.00

Interreg Funds: € 799 827.20

Project duration: 2024-2026 (27 months)
